

FROM CRISIS TO CONTROL

GROUNDBREAKING RESEARCH STUDY REVEALS LESSONS LEARNED FOR STRATEGIC PROJECT MANAGEMENT

Learn Why Project Management Offices Will Not Exist in 10 Years.

A new study by Business Improvement Architects shows why Project Management Offices, as we know them, won't exist in 10 years and what you need to do today to prepare your organization for the future.

A Groundbreaking Study of Over 750 Global Organizations!

Developing a sustainable culture of project management can have a tremendously positive impact on an organization's productivity and profitability. This groundbreaking study of over 750 global organizations reveals that without this culture, organizations are less likely to execute on strategy and are losing millions as a result.

This Report is a Must Read If You Want To Know What Really Works!

Organizations have already spent thousands of dollars on consultants who are telling them to "set up a Project Management Office - everyone else is doing it." Did your organization fall into this same trap? This research report reveals lessons learned from interviewing leaders from over 750 corporate and departmental Project Management Offices.

Learn the Strategic Role of Projects in Creating Organizational Success.

The research-based recommendations will help your organization create a road map for success. This research report reveals:

- What organization you need to set up today to position your projects for future success.
- How to make sure the organization you set up shows bottom-line results within the first two years.
- How to ensure every project is strategically aligned so the benefit is obvious to other executives.
- How to create a corporate environment that nurtures and grows successful projects.
- How to stop fighting over resources so that projects and daily tasks are both fully supported and recognized.
- What type of training is most effective in building competent project managers and project teams.
