

Deliver your project in less time and more successfully than ever!

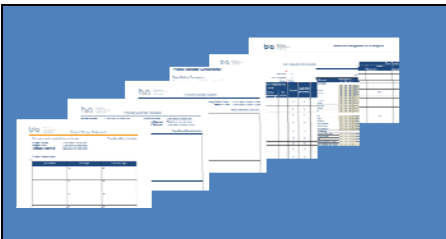

Are you frustrated with the amount of time you need to spend on project documentation? Or, do you lack formal project management skills and are unsure about what documentation you should be preparing to successfully manage a project? Then you will benefit from *Project Success Templates®*.

Project Success Templates® is a new breed of project management templates that provides guidance on your project from start to finish. It incorporates **self-help features** and **interactive on-screen instruction** to make it easier than ever to document and manage projects. It's an ideal project management tool for initiating, planning and executing projects easily and quickly, even without formal project management training. It includes unique **project management competency assessments with automatic scoring** to select the right resources to work on projects and a **project portfolio management module** to manage multiple projects. *Project Success Templates®* includes a **project lifecycle flowchart** with links to the templates that guides you through every step of managing a project and directs you through the sequence in which templates are to be implemented. *Project Success Templates®* is suitable for all industries and sizes of projects. It complies with worldwide project management standards such as PMBOK and ISO 10006 and reflects the best practices in project management from global research of Project Management Offices.

Features and Benefits

All the templates you *really* need to manage a project

When you buy the “*Everything You Need*” package of *Project Success Templates®*, you will receive all the templates and tools you need to deliver your project successfully without adding to your workload. It includes modules for *Project Portfolio Management* and *Project Management Competency Assessments™* to help you select the best possible project team. You won't get these anywhere else!

Ultra easy-to-use

We've spent considerable time and effort to make our templates better than competing products. With *Project Success Templates®* you will find easy and fast to document your project. Each template features **interactive, on-screen instructions** to guide you through completion plus a project lifecycle flowchart that **guides you through every step of managing a project and directs you through the sequence in which templates should be implemented**. You will also receive a short **tutorial video** to get you started quickly.

You'll save hours of time!

Project Success Templates® is an amazing time saver! You'll save hours of time because you won't need to create documents from scratch or spend hours trying to figure out how to complete the templates. You

will be assured that the templates we provide are all you *really* need to manage your project successfully from start to finish without adding to your workload.

Proven project management methodology

Project Success Templates® has been used by project teams around the world to save time and money on projects. These project management templates have a proven track record for success and are **based on best practices in project management worldwide**.

Includes project management competency assessments and project portfolio templates

Project Success Templates® covers every step in the project life cycle. It includes **unique competency assessments with automatic scoring** to ensure that resources working on projects have the necessary skills to perform their roles. These templates also include **project portfolio management templates** to make managing multiple projects easier. We've selected the templates carefully to give you all you need to manage a project without adding to your workload.

Suitable for all industries and projects

Project Success Templates® is suitable for all industries and all sizes of projects.

Complies with worldwide standards for project management

Project Success Templates® complies with PMBOK® (Project Management Body of Knowledge) and ISO 10006 (International Standards Organization Standard for Quality in Projects).

Easy to follow, interactive templates and tools plus a video tutorial to get you started

We've spent considerable time and effort to make our templates better than competing products so that you get more for your money! Each template features: interactive on-screen instruction to guide you through completion, self-scoring features where applicable and a project lifecycle flowchart that directs you through the sequence in which to use the templates through the project lifecycle. You will also receive a video tutorial to get you up and running quickly.
