

Deliver your project in less time and more successfully than ever!

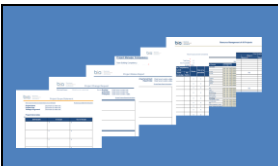

Are you frustrated with the amount of time you need to spend on project documentation? Are your existing project management tools and methods just too complex and burdensome? Are you unsure about what documentation you should be preparing to successfully manage a project? If you've answered "yes" to any of these questions, then you'll want to use *Project Success Templates®*. It's easier than 1-2-3!

Project Success Templates® are the most clear yet comprehensive and easy to use/easy to follow templates ever released. It includes 7 modules with 37 templates that cover all aspects of managing a project from initiation to close. Each template has **self-help features** and **interactive on-screen instructions** to get you up and running quickly and a **project lifecycle flowchart** that links to the templates to guide you through all the project phases in the correct sequence of implementation.

Features and Benefits

All the templates you *really* need to manage a project

Buy the "Everything You Need" pack and receive all 7 modules with all the tools and templates you'll need to manage a project. Or purchase modules individually. We even offer a special pack of templates for Business Analysts.

Ultra easy-to-use

Project Success Templates® are easy and fast to use because each template features **interactive, on-screen instructions** to guide you through completion and links to a project lifecycle that **directs you through the sequence in which templates should be implemented**. You will also receive a short **tutorial video** to make it even easier.

You'll save hours of time!

Project Success Templates® is an amazing time saver! You'll save hours of time because you won't need to create documents from scratch or spend hours trying to figure out how to complete the templates. Be assured that these templates can simplify how you manage projects and save you a ton of time.

Proven project management methodology

Project Success Templates® has been used by project teams around the world to save time and money on projects. These project management templates have a proven track record for success and are **based on best practices in project management worldwide**.

Includes project management competency assessments and project portfolio templates

Project Success Templates® covers every step in the project life cycle. It includes **unique competency assessments with automatic scoring** to ensure that resources working on projects have the necessary skills to perform their roles. And there are **project portfolio management templates** to make managing multiple projects easier. We've selected the templates carefully to give you all you need to manage a project without adding to your workload.

Suitable for all industries and projects

Project Success Templates® is suitable for all industries and all sizes of projects.

Complies with worldwide standards for project management

Project Success Templates® complies with PMBOK® (Project Management Body of Knowledge) and ISO 10006 (International Standards Organization Standard for Quality in Projects).

Easy to follow, interactive templates and tools plus a video tutorial to get you started

We've spent considerable time and effort to make our templates user friendly and simple to use to give you great value!

Project Success Templates® is perfect for anyone working on projects:
